

SUMER JAITLEY

London, UK | su.jaitly@gmail.com | +44 794 835 9720
github.com/su-jai | [INSPIRE-HEP publications](#) | [LinkedIn](#)

PROFILE

Theoretical physics postdoc with a strong record of peer-reviewed publications in leading journals such as Physical Review Letters, transitioning into quantitative AI/ML and applied research roles. Experienced in taking open-ended technical problems from formulation to peer-reviewed publication, with current practical focus on Python based traditional machine learning and deep learning.

TECHNICAL SKILLS

Programming: Python, Mathematica, C, Git

Python libraries: NumPy, SciPy, pandas, Matplotlib, scikit-learn; currently developing PyTorch

Methods: symbolic computation, optimisation, mathematical modelling, perturbative analysis, analytical problem solving

RESEARCH EXPERIENCE

Postdoctoral Fellow – High-Energy Physics Group
Scuola Normale Superiore

2024 – 2026
Pisa, Italy

Research Associate – Theoretical Physics Group
Imperial College London

2023 – 2024
London, UK

EDUCATION

PhD, Theoretical Physics
Imperial College London

2023

MSc, Quantum Fields and Fundamental Forces (Distinction)
Imperial College London
Awarded the Abdus Salam Prize for highest rank in year

2019

BSc, Physics with Theoretical Physics (First class)
Imperial College London
Awarded President's Undergraduate Scholarship

2017

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- **Deep Learning Specialization**, DeepLearning.AI / Coursera *2026*
- **CS229: Machine Learning (audited)**, Stanford University course materials *2026*

COMMUNICATION AND LEADERSHIP

- Organised weekly theoretical physics seminars at Scuola Normale Superiore, coordinating speakers and research discussions.
- Prepared and delivered weekly problem-solving classes for a master's level Quantum Field Theory course, teaching approximately 150 students at Imperial College London.
- Mentored master's students on dissertation projects involving advanced topics in theoretical physics.
